

## The Holy Land Pen

Made from olive tree wood from Bethlehem and comes with certification of its origin. These exquisite pens are hand made here in the The Coachella Valley by local artisan Jay Jamison Tompkins. Jay has been a wood worker for over 60 years and has been making pens and wonderful wood turnings for over 30 years.

Enjoy the ownership of a piece of the Holy Land that you can show your friends and know that the wood from this pen was from the very place that Jesus walked and Christianity began.

I have a very limited supply of Holy Land olive wood left for the holidays so please order soon so as not to be disappointed. Available in Black Chrome, Chrome, Silver, Gold, Copper and many others.

**Own a piece of the Holy Land for \$65.00**

Many other pen styles and woods available.

Do not send money without confirming your order with Jay
